## A Message from Cory Christian, Breeze Airways Regional Manager

Spring is in the air, and like many in the industry, we're well underway making plans for a busy summer travel season. Last summer, Breeze contributed over 110,000 guest movements in/out of RIC, and we're looking forward to an even more robust 2024 with nonstop service from coast-to coast. We're incredibly grateful for the opportunity to serve RIC and for the partnership of the RIC airport community. We hope to be able to welcome you onboard and showcase our Seriously Nice™ service in the very near future!

## Try the Brand-New Menu at Club Level Grill!

by Johanna Wheeler, General Manager, Travel Hospitality Services – Delaware North

We welcome you to come visit us at Club Level Grill to experience Chef Cory's new menu and treat yourself to his mouth watering creations. We have a little something for everyone!

Chicken isn't just chicken when you take a bite out of Chef's take on the Nashville hot chicken sandwich! Hand battered chicken coated with his spicy take on the famous Nashville sandwich, topped with a sweet and tangy apple slaw, bleu cheese crumbles, and pickles; sound tasty but messy? Not to worry! This is a fork friendly sandwich served open face for a mess free lunch. In the mood for something lite, healthy and tasty? Try his Jet-lag grain bowl. Farro, marinated tomato, pickled onions, fresh mozzarella, green tomato chow-chow, and red wine vinaigrette. It comes with grilled chicken, but you can substitute grilled shrimp. This versatile dish is sure to please your taste buds! It's healthy, light and packed full of flavor. Go on a culinary adventure for lunch!

## NASCAR Returns to RVA

Welcome race fans as night racing returns for Richmond Raceway's 69th annual spring NASCAR Cup Series race – the Toyota Owners 400!

## Efforts Continue to Make It Safer to Fly RIC

by Paul Barksdale, Building Services Manager

Here at RIC, we have high standards of cleanliness. The airport is an accredited Global Biorisk Advisory Council® (GBAC) STAR™ facility for implementing the most stringent protocols for cleaning, disinfection, and infectious disease prevention. To achieve accreditation, the Airport had to comply with 20 core elements of the program.

The pandemic and seasonal flu have highlighted the importance of infection prevention and control measures to help reduce the spread of many pathogens. Our GBAC-accreditation is an essential part of our practice: to maintain a clean, safe, and sanitary environment for our traveling public, co-workers, and stakeholders. Maintaining this accreditation allows us to continue to distinguish ourselves as a professional cleaning entity with an understanding of the science of infection prevention. This knowledge enables us to implement and utilize effective long-term plans to reduce the spread of diseases like COVID-19 and its variants.
